

Notes

- 1) All dimensions are in feet and inches. Weights are in pounds. Values listed are for standard construction units with no additional options and accessories; exact values may vary depending upon unit configuration.
- 2) Operating weight and weight loading are for units with water level in basin at overflow.
- 3) Unit support beams and anchor bolts to be designed and furnished by others.
- 4) Support beams must be flush and level at top.
- 5) Each beam should be designed, as a minimum, for 65% of the total unit operation weight applied as a uniformly distributed load.
